- Item 6. Questions from members of the public**
- Item 7. Matters raised by the Committee not on the agenda –**

James Radley asks

As a District Councillor for a ward with houses contained within in the CAA's published PSZ for Farnborough I have a duty to affected residents to ensure that there is transparency over how the PSZ is calculated.

It is the responsibility of the operator of an aerodrome to supply the CAA with information regarding projected movements 15 years hence, so as to enable the CAA to effectively predict the true PSZ contour. The CAA refreshed the Farnborough PSZ in 2012 and therefore would have required TAG to submit data related to the projected aircraft movements for the Farnborough aerodrome in 2027. What values for the total number of aircraft movements, the number within each aircraft category (as required to identify suitable crash rates) and mean weight within each category did TAG Farnborough submit as their projection for the 15 year lifetime of the PSZ?

- Item 10. Meetings of the Committee in 2013 will be at 14:00 hrs on**
 - **Thursday 31st October 2013**
